Batman Begins The Dark Knight: Be Prepared For Some Real Time Action

Batman movies have really captured the fantasy of the young children and adults all over the world.

Batman movies and merchandise have really created an entire generation of fans and revolutionized the concept of superheroes. There have been many series of batman action flicks starring famous Hollywood superstars like Christian Bale. The story of batman actually starts in a fictional city called the Gotham City when his parents were killed by two thieves and the superhero was just a child.

This has a lot of impact on the mind of the young batman whose real name is Bruce Wayne, who after witnessing the death of his parents self-trains to become a superhero with extraordinary intellectual and physical perfection. A sole survivor of a million dollar industrial empire, since birth, Bruce Wayne grows up to become a philanthropist, a playboy, and a wealthy industrialist.

He seeks out psychological satisfaction by wiping out crime from the city of Gotham by donning a super-batman costume in the night. Also known by the name of caped crusader, the superhero makes use of special detective skills, incredible technology and science, physical prowess and a complete dominance against his war against crime.

Although a lot of movies have been made about the adventures of batman and the caped crusader but there has never been any movie about the adolescence years of the batman which lead to the transformation of batman.

There is a new movie starring Christian Bale called the Batman Begins: the dark knight which covers the original life of batman right from the time of the accident till the time he became a formidable crime fighter.

Expectations of movie called the Dark Knight

The Dark Knight will be released in the year 2008 on July 18 in the North America, and is a much awaited sequel to the 2005's blockbuster movie Batman Begins, which had bought back the reputation of the Batman film series after a gap of eight-years. The cast and crew of this movie is same as that of the prequel and Christopher Nolan is the director of this movie who had also directed the first part of the Batman Begins.

This movie essays around the primary conflicts of Batman against his primary antagonist in the movie called the Joker played by the late Heath Ledger. The movie also highlights the distant yet amiable of Batman ship with his district attorney friend called Harvey Dent played by famous actor Aaron Eckhart.

For his conception of the film, Nolan was inspired by the Joker's first two appearances in the comics and Batman: The Long Halloween. The Dark Knight has been shot in locations primarily located in Chicago where the Batman Begins was also shot and in many other locations including areas like the United Kingdom, Hong Kong and the United States.

Before the release of the movie, one can have fun with the batman begins movie wallpaper and purchase it online and adorn it on their desktop.
